*life*

## 26 years *is a long time*

SAY WHAT YOU WILL ABOUT TIME, but sometimes it works in your favour. Let enough time pass, and it will bring perspective, to clarify if what you thought was a good idea actually turned out to be one.

We look back on a history in which we have found new ways of manufacturing furniture and have gone from a company employing dozens to one employing thousands, with a presence in more than twenty European markets.

And it seems we are not the only ones who recognize that we are on to something. Being chosen to be a supplier to one of the largest home furnishing companies in the world has meant a lot – for developing our business, as well as for the encouraging stamp of approval it brings.

Our history shows that we achieved what we set out to do: become a long-term-thinking, reliable company. But in order to remain that way, we must rely on anything but the past. Instead we have to keep moving, to keep making progress, every day and on every level.

# dedicated *to comfort*

A WHILE AGO WE MADE A QUICK CALCULATION and it turned out that roughly 4,000 pieces of SITS furniture found a place in someone's home every day. Today we've probably surpassed that number, but we're just as humbled by it. o take a place in someone's life brings responsibility. And our way of living up to that is by always delivering on the one thing we know our customers look for in our products: comfort.

To be able to relax into a sofa or to enjoy the design of a table is what SITS is all about.

But getting into the comfort zone, contrary as it may seem, is hard work. From design through production, up to the final moment of truth, we focus on one thing and one thing only: you. Our design needs to be matched by your experience. And the quality of our products will enable you to enjoy them for many years to come.

You can take comfort in many things. We just never take it for granted.

# hand*made*

If there is anything 25 years of experience has taught us, it is that quality comes from the human touch. Hands have the power to transfer a design vision into a comfortable experience like no other tool. They make fabric fold and stretch just the way it should. And in their touch lies the final approval before we send a new sofa off for delivery.

From one pair of hands to another. That's not to say we never use technology—but it's always as a tool, never as a replacement for the person operating it. At SITS every member of our staff is a key player because everyone contributes to making our furniture what it is. That's why we give our staff the best working conditions.

Having a human touch in everything we do simply makes our products better.

# making furniture *for people*

TO US, THAT'S AN OBJECTIVE THAT INVOLVES THE END PRODUCT as much as it involves the footprint of our production process. At SITS we are trying our best to improve the way we do business by following the GREEN BY SITS strategy. It guides all of our work, from minimising CO<sub>2</sub> emissions in our supply chain, to choosing FSC-certified wood, and making sure we leave no stone unturned in our own plants. For example, in 2012 we started using 50% less energy to illuminate our assembly rooms. We have also invested in energy-efficient equipment and we power our production with energy from renewable sources.

# we are *family*

SITS WAS FOUNDED LIKE TO SO MANY OTHER COMPANIES: AS A FAMILY BUSINESS. And as the company has grown with time, so has our family. Because that is still how we like to think of Sits.

Being a family means caring about each other. Since people make our company what it is, it also makes sense to put them at the centre. Showing that you care is simply the best way to make others care about you. And that is something we notice everyday, in the dedication to detail and creativity that makes our company run.

We want Sits to be a company where you know us by name. Where you recognise people and faces from year to year, and where the door is always open.

We're family. And you're welcome to join us.

# our *designers*

STEVEN SCHILTE. Started his career as a student at the Design Academy in Eindhoven. From there he has built a successful career as a product designer working for such renowned companies as Jan des Bouvrie, before going freelance. His furniture designs have won several awards, for instance at the »Salon du Meuble« in Paris, the red dot design awards, the interior innovation award, as well as been nominated for the German Design Prize.

NIELS GAMMELGAARD. A renowned designer who studied under Erik Herløw at the Royal Danish Academy of Fine Arts in Copenhagen, Niels graduated in 1970 and went on to cofound Pelikan Design with Lars Mathiesen, designing everything from small pencils to tricycles and hospital beds. Pelikan is best known for its design of commercial furniture, with many of the most prestigious Danish furniture manufacturers – including Fritz Hansen, Bent Krogh, Fredericia and Erik Jørgensen – among its clients.

DAN IHREBORN. A freelance designer since 1991 with specialities in contemporary furniture and office environments, Dan brings a refreshing perspective to SITS: »For me, sofas and easy chairs should give a simple, light and resilient impression, even if they have powerful volume. They should, of course, also be really comfortable and easy to care for. But above all, their design must last longer than ordinary trends.«

IAN ARCHER. With a passion for sculpture and product design, Ian studied furniture in Birmingham, graduating from the School of Architecture and Design in 1989. He then worked in contract furniture before establishing himself as a furniture designer and then a design director in the domestic upholstery industry. With interests that embrace both classic and modern design, Ian formed his own consultancy. Today his work can be seen in such stores as John Lewis, Heal's, Laura Ashley, Harrods and Couch, as well as many other independent retailers across the UK, Europe and Asia.

# what are you *in the mood for?*

We've chosen to arrange our products by inspiration. Think of our collections as clusters united by a certain feeling rather than categories divided by origin, material or designer. That's why we call them mood collections.

In every mood there are certain features that form the basis for the collection. But the mood is there just to inspire, leaving the final decision up to you. If you think a certain sofa belongs to a different setting than we suggest, who are we to say otherwise?
